

The Romans Term Projects'

Throughout the Autumn Term Birch class will be learning all about The Roman's as part of their Topic.

To support their learning at home, we would like them, across the term, to complete as many of these projects as they can in whatever way would like to present it. E.g. models, word processed, drawn, etc

The person who has accrued the most points at the end of the term will receive a certificate in our end of term celebration assembly.

We actively encourage parents and family members to get involved but please ensure it is all the children's work and ideas.

The children should use what they have learnt in class as well as what they have researched at home to help them with their projects.

<u>Design and make a poster</u> 25 points	<u>Design and construct a Roman numeral clock</u> 50 - 100 points	<u>Design and construct a model of something the Romans were famous for inventing.</u> 50 – 100 points
<u>Write a persuasive advert to encourage someone to join the Roman Army.</u> 40 points	<u>Design and construct a Roman shield</u> 50 – 100 points	<u>Design and make a Roman Army Flag that is marched into battle.</u> 40 – 80 points
