

# ACADEMY STRATEGIC IMPROVEMENT PRIORITIES 2025 - 2026

## 1. Sustainability

To develop a whole-school sustainability strategy by collecting and analysing baseline data. This will inform future planning and initiate a culture of environmental awareness through early opportunities for outdoor learning and eco-conscious practices.

## 2. Curriculum Implementation and Impact

To continue developing a cohesive, whole-school curriculum rooted in our curriculum drivers, ensuring consistency and progression in learning. We will embed purposeful assessment in foundation subjects to measure impact and raise pupil outcomes, while enriching the curriculum through meaningful opportunities for outdoor learning.

## 3. Early Years and Foundation Stage

To embed the Trust's EYFS principles, nurturing our youngest pupils through high-quality play and exploration. This will lay strong foundations for lifelong learning, fostering curiosity, independence, and a love of learning from the very start.

## 4. Writing and Early Reading

To strengthen our teaching of writing and early reading through high-quality professional development, ensuring deep subject knowledge and effective pedagogy that drives excellence in literacy across the school.

## 5. Relational Approach

To build upon our positive behaviour management that supports inclusion, engagement and outcomes in accordance with our schools' ethos, values and curriculum intent.
